En las instalaciones/centros indicados en el informe de verificación.

C/ Abedul, 9, Pol. Ind. El Tempranar, 28942, Fuenlabrada, Madrid, España

At the facilities/centers indicated in the verification report.

Type of Footprint: ORGANIZATION

Base year: 2022

Para obtener Cualquier aclaración adicional relativa al alcance y validez de este certificado como a la aplicabilidad de los requisitos de la norma se puede obtener consultando a la Entidad de Certificación o envíe un correo electrónico a [info@icdq.es](mailto:info@icdq.es)

La vigencia del certificado está supeditada a la realización de las auditorías de seguimiento anuales destinadas a verificar el mantenimiento de los requisitos aplicables al Sistema de Gestión.

Avinguda Ernest Lluch, 32, Edificio TCM2, P6, ofic.3, 08302, Mataró, Barcelona

The objective of verification is to ensure that the information provided by the organization is complete, transparent, accurate and free of errors or omissions.

The criteria for the Verification of the Inventory of Greenhouse Gases are based on those established in the UNE-EN ISO 14064-1:2019 standard. The verification carried out by ICDQ includes the evaluation of the Information System, its control and its reporting procedure, as well as the verification of the application of the procedures defined by the organization.

Considering the information evaluated, ICDQ can ensure with a limited level of assurance that:

- The Carbon footprint of the CORPORATIVE INTERNATIONAL for the verified Calculation period 2022 is: 1087,54 Tons of CO2-eq.
- The GHG inventory presented by the organization on October 2023 "INFORME DE L'INVENTARI DE GEH 2022" is prepared in accordance with the criteria established in the applicable standard in relation to its quantification, control and reporting and represents gas emissions of the greenhouse effect of its activities.

This conclusion should be considered together with the statement/document presented by the organization and referred to above.

In Mataró on December 22, 2023
